Sandoz® Lisdexamfetamine Capsules is used to treat:

- Attention Deficit Hyperactivity Disorder (ADHD) in children 6 years of age or older, adolescents and adults. Treatment should be combined with other measures, such as psychological counselling, educational and social measures, as part of a total treatment program. It is NOT recommended for use in children with ADHD under 6 years of age.
- moderate to severe Binge Eating Disorder (BED) in adults. It is NOT recommended for use in children with BED under 18 years of age.
